Title: Concepts and methods for identifying brain correlates of elementary mental states

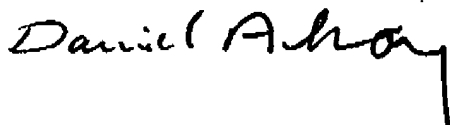

Attention: Mr. Jerry Lin, Examiner

Dear Mr. Lin:

Yesterday, shortly after sending you the fax of that date I received a call from a person in your office (I didn't catch the last name, but the first name is Yolanda). She advised me that the computer system shows that the starting date for my time to respond is October 19, 2006. I asked for a written notification. Yolanda indicated that she will act on the matter without delay.

I thank you for the prompt response to my yesterday's fax.

Respectfully,

Daniel Alroy * Philon * 19 Stanton Street, NY, NY 10002 * 212 505-0110
